*Country of residence as per tax laws: Country in which the person/entity is liable to pay tax on the global income earned and is liable to tax therein by reason of his domicile, residence, place of management or any other criterion of a similar nature. Eg: Person resident in India, will be liable to pay tax in India on his global income but may have TIN of countries other than India like USA, Japan, etc as he is earning income from business sourced from these countries as well but his country of Tax residence will be "INDIA".

**TIN: Tax-Payer Identification Number ("TIN" including "functional equivalent"), is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity for its identification for the purposes of administering the tax laws of such jurisdiction. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for individuals, a social security/insurance number, citizen/personal identification/service code/number, and resident registration number. If no TIN is yet available or has not yet been issued, please provide an explanation and attach with this form.

***TIN issuing country: Name of the country mentioned in TIN card as issuing country. Eg. If a person is earning income from different countries, may have TIN of all these countries and accordingly TIN issuing country will be different for each TIN
