Name Of the Hospital - Aastha Hospital

Rohini Id - 8900080001787

Address - L2/50 New Mahavir Nagar Our Rang Road Opp. Kangra Niketan New Delhi Near Distric Centre Janakpuri, New Mahavir Nagar Delhi Delhi 110018

Information as at - 12/24/2021

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	55
2	Number of Doctors	14
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	2
2b.	Number of consultants	14
2c.	Number of surgeons or interventionists	3
3	Total number of qualified nurses in the hospital	16
4	Total number of intensive care unit beds in the hospital	7
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	2
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	10
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH Done

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.047222222222
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.044444444444
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	16
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0423611111117
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr1Hreceding financial year)	30 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	1Hr
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4-5 Days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	2-3 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.3

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	25
2	Number of Doctors	16
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	4
2b.	Number of consultants	14
2c.	Number of surgeons or interventionists	16
3	Total number of qualified nurses in the hospital	0
4	Total number of intensive care unit beds in the hospital	8
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	0
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	0
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Pre-entry Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.05
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.047222222222
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	0
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	08
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr35 MINeceding financial year)	15 MIN
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	35 MIN
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4.3
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	3.8
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	60

	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.41736111111
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.20902777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	10
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.08402777777810
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr60 minuteseceding financial year)	30 minutes
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	60 minutes
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	5 - 7 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	7 - 10 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	30% of the total delivery cases

2	Number of Doctors	132
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	41
2b.	Number of consultants	76
2c.	Number of surgeons or interventionists	134
3	Total number of qualified nurses in the hospital	11
4	Total number of intensive care unit beds in the hospital	15
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	11
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	59
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Pre-entry Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.04375
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.043055555556
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	11
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.04583333333315
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr6 HRSeceding financial year)	20 MINs
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	6 HRS
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4.1
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	3.8
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.6658

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.049305555556
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.045833333333
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	10
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.043759
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr45-90MINSeceding financial year)	30-60 MIN
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	45-90MINS
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4-5 DAYS DEPEND ON CONDITION
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	3-5 DAYS
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.65

Address - Suman Nagar, Sion-Tronbay Road, Chembur Chembur Sion-Trombay Road Mumbai Maharashtra 400071

Information as at - 8/12/2022

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	69
2	Number of Doctors	20
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	10
2b.	Number of consultants	10
2c.	Number of surgeons or interventionists	80
3	Total number of qualified nurses in the hospital	18
4	Total number of intensive care unit beds in the hospital	
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Pre-entry Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.045138888889
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	18
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)

Name Of the Hospital - Mahindru Hospital

Rohini Id - 8900080006645

Address - E-1, Kiran Garden, Uttam Nagar … Delhi Delhi 110059

Information as at - 7/6/2023

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	48
2	Number of Doctors	17
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	5
2b.	Number of consultants	10
2c.	Number of surgeons or interventionists	48
3	Total number of qualified nurses in the hospital	4
4	Total number of intensive care unit beds in the hospital	4
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	4
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	13
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Accredited Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.052083333333
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.059027777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	4
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0430555555564
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr2.5 hourseceding financial year)	20 minutes
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	2.5 hours
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	0.12569444444
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	0.12847222222
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.78

2b.	Number of consultants	43
2c.	Number of surgeons or interventionists	62
3	Total number of qualified nurses in the hospital	15
4	Total number of intensive care unit beds in the hospital	12
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	5
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	14
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Pre-entry Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.12569444444
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.043055555556
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	15
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0437512
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the prHOSPITAL-20 MINUTES & TPA PROVIDE APPROVALS IN 2 TO 3 HRS]eceding financial year)	15mins
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	HOSPITAL-20 MINUTES & TPA PROVIDE APPROVALS IN 2 TO 3 HRS]
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	10 DAYS
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	03 DAYS
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	50
2	Number of Doctors	15
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	8
2b.	Number of consultants	20
2c.	Number of surgeons or interventionists	15
3	Total number of qualified nurses in the hospital	4
4	Total number of intensive care unit beds in the hospital	2
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	2
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	3
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NA

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.16736111111
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.12569444444
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	4
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0840277777782
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the prin Cash patient with 1/2 hreceding financial year)	10mnts
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	in Cash patient with 1/2 hr
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	+_ 3
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	60000 excluding medicine

Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Accredited Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	1.08:1
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	1.30:1
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	0
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.04305555555657+
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr2-3 HRSeceding financial year)	30 MINUTES
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	2-3 HRS
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3-4 DAYS
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	2-3 DAYS
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	29
2	Number of Doctors	12
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	7
2b.	Number of consultants	19
2c.	Number of surgeons or interventionists	7
3	Total number of qualified nurses in the hospital	0
4	Total number of intensive care unit beds in the hospital	12
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	0
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	0
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Pre-entry Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.046527777778
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.046527777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	0
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	na12
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr120 minseceding financial year)	10 mins
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	120 mins
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	5
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) Name Of the Hospital - Sugam Hospital

Rohini Id - 8900080203174

Address - 349, T.H. Road Thiruvotriyur … Chennai Tamil Nadu 600019

Information as at - 6/7/2023

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	102
2	Number of Doctors	58
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	20
2b.	Number of consultants	38
2c.	Number of surgeons or interventionists	77
3	Total number of qualified nurses in the hospital	16
4	Total number of intensive care unit beds in the hospital	5
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	5
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	48
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Pre-entry Level

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	1;15
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.052777777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	16
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0423611111115
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr4 hrseceding financial year)	2 hrs
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	4 hrs
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3-4 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	3-4 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	72

6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	1.1
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NA

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	2.1
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	13.9
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	2
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	1.11
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr15 minuteeceding financial year)	15 minute
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	15 minute
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4-5 days.
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	5-6 days.
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.6

Name Of the Hospital - Apollo CVHF Heart Institute (A Unit of Apollo CVHF Ltd.)

Rohini Id - 8900080414709

Address - GNFC Tower near pakwan cross road S G Highway … Ahmedabad Gujarat 380059

Information as at - 7/1/2021

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	64
2	Number of Doctors	16
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	16
2b.	Number of consultants	10
2c.	Number of surgeons or interventionists	8
3	Total number of qualified nurses in the hospital	60
4	Total number of intensive care unit beds in the hospital	36
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	3
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	15
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH Done

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.044444444444
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.04375
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	60
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.04236111111136
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr1 Hrseceding financial year)	30 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	1 Hrs
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3 Days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	5 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) 2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	6
2b.	Number of consultants	5
2c.	Number of surgeons or interventionists	6
3	Total number of qualified nurses in the hospital	45
4	Total number of intensive care unit beds in the hospital	0
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	3
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	10
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Applied for pre entry level certificate ISO Certified

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.048611111111
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.21527777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	45
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	00
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr1 Hreceding financial year)	45 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	1 Hr
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	8-9 Days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	6-7 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.3

Rohini Id - 8900080008120

Address - A-168, Pocket-00, Sec-2, Rohini

Information as at -

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	11
2	Number of Doctors	
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	6
2b.	Number of consultants	6
2c.	Number of surgeons or interventionists	10
3	Total number of qualified nurses in the hospital	12
4	Total number of intensive care unit beds in the hospital	
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	6
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	12
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.043055555556
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.043055555556
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	12
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr2 Hreceding financial year)	1 Hr
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	2 Hr
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3-5 Days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	3-5 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.41736111111
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.20902777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	46
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.1256944444425
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr3 Mineceding financial year)	5 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	3 Min
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	5-7 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	1-5 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.85

5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	70
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	132
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.055555555556
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.045833333333
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	350
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.043055555556120
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr4 Hrseceding financial year)	20 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	4 Hrs
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	2
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.9

Rohini Id - 8900080552319

Address - Khasra No 2160/2, Shivshakti Vihar, Meerut

Information as at -

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	30
2	Number of Doctors	10
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	4
2b.	Number of consultants	8
2c.	Number of surgeons or interventionists	6
3	Total number of qualified nurses in the hospital	20
4	Total number of intensive care unit beds in the hospital	6
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	2
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	10
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	ISO

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.090277777778
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.090277777778
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	20
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.131944444446
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr0.875eceding financial year)	8-6 PM
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	0.875
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	Avg 4 Days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	Avg 6 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.67

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	48
2	Number of Doctors	4
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	4
2b.	Number of consultants	4
2c.	Number of surgeons or interventionists	
3	Total number of qualified nurses in the hospital	25
4	Total number of intensive care unit beds in the hospital	17
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	2
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	8
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.2
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	1.075
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	25
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.3451388888917
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr1 Hrseceding financial year)	1-2 Hrs
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	1 Hrs
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)

Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.04375
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.04375
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	18
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr2-3 Hrseceding financial year)	10-15 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	2-3 Hrs
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3-4 Days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	2-3 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)

6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	6
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NA

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.048611111111
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.045833333333
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	10
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0430555555564
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr20 MIneceding financial year)	15 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	20 MIn
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	4 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	0.2

3	Total number of qualified nurses in the hospital	3
4	Total number of intensive care unit beds in the hospital	
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	01:03
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	01:03
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	3
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr4-5 Mineceding financial year)	10-15 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	4-5 Min
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	1-3 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)

3	Total number of qualified nurses in the hospital	12
4	Total number of intensive care unit beds in the hospital	3
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	2
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	3
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	Yes

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.04375
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.045138888889
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	12
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0444444444443
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr30 Minseceding financial year)	20-30 Mins
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	30 Mins
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	2-3 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	1-2 Days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	30
2	Number of Doctors	4
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	4
2b.	Number of consultants	20
2c.	Number of surgeons or interventionists	10
3	Total number of qualified nurses in the hospital	8
4	Total number of intensive care unit beds in the hospital	3
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	2
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	8
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NA

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.045833333333
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table — A above)	0.043055555556
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	8
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	0.0430555555563
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr2 Hreceding financial year)	1 Hr
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	2 Hr
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	7 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) Name Of the Hospital - Amma Hospital

Rohini Id - 8900080542983

Address - Near Galemma Temple Ramanagara Hospete Road Hagaribommana Halli, 583212

Information as at -

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	15
2	Number of Doctors	3
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	0
2b.	Number of consultants	7
2c.	Number of surgeons or interventionists	3
3	Total number of qualified nurses in the hospital	8
4	Total number of intensive care unit beds in the hospital	NA
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	NA
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	NA
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NA

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.62847222222
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.63055555556
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	8
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	NANA
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr45 Mineceding financial year)	30 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	45 Min
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	3 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	7 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)	NA

Name Of the Hospital - Shri Sai Gajanan Hospital

Rohini Id - 8900080576780

Address - Beside Jubilee High School, Behind Government Hospital, Kasturbha Road, 442402

Information as at -

Table - A

S No.	Medical infrastructure of the Hospital	
1	Total Bed strength of the Hospital	30
2	Number of Doctors	15
2a.	Total number of Full-time doctors with qualification approved by MCI in the rolls of the Hospital?	2
2b.	Number of consultants	15
2c.	Number of surgeons or interventionists	6
3	Total number of qualified nurses in the hospital	22
4	Total number of intensive care unit beds in the hospital	3
5	Number of doctors (with Qualification of MBBS/MD) exclusively available for ICU	3
6	Number of qualified nurses available exclusively in the Intensive care Units taking all the shifts together	3
7.	Accreditation received by the Hospital (Pre-entry level Certificate or higher level of certificate) issued by National Accreditation Board for Hospitals and Healthcare Providers (NABH) or State Level Certificate (or higher level of certificate) under National Quality Assurance Standards (NQAS), issued by National Health Systems Resources Centre (NHSRC)) (Details of Accreditation shall be provided).	NABH

Table - B			
	Parameter	**Calculation**	
1	DOCTOR- BED RATIO	Number of doctors as proportion of beds (For the calculation of this ratio "Number of doctors" stated in Sl.No.2 of the Table- A above, shall be used and Beds shall as per Sl no. I of Table — A above)	0.20902777778
2	NURSE-BED RATIO	Number of Qualified Nurses as proportion of occupied beds. (For the calculation of this ratio "Number of Qualified nurses" stated in Sl.No.3 of the Table-A above, shall be used and Beds shall as per Sl no. 1 of Table —A above)	0.042361111111
3	DOCTOR- BED RATIO IN ICU	Number of doctors exclusively for ICU, as proportion of beds in ICU (For the calculation of this ratio "Number of doctors" stated in Sl.No.5 of the Table-A above, shall be used and Beds shall as per Sl no. 4 of Table — A above)	22
4	NURSE- BED RATIO IN ICU	Number of Qualified Nurses exclusively for ICU (Sl No. 6 of Table - A), as proportion of Beds (Sl No. 4 of Table —A) in ICU.	3
5	AVERAGE ADMISSION TIME	Time to be reckoned from the time the patient has reported to the hospital till the time of admission of patient. (As per the calculation of Insurer taking into account all the respective admitted cases in the pr120 Mineceding financial year)	30 Min
6	AVERAGE DISCHARGE TIME	Time to be reckoned from the time the patient was advised discharge by the doctor till the time of final discharge of the patient (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year)	120 Min
7	AVERAGE LENGTH OF STAY (ALOS) FOR MEDICAL CASES	Numerator: Total medical inpatient days (during the last financial year) relating to insurer Denominator: Total number of medical inpatient discharges (during the last financial year) relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.) excluding day care treatment like chemotherapy, radiotherapy dialysis etc.	4-6 days
8	AVERAGE LENGTH OF STAY (ALOS) FOR SURGICAL CASES	Numerator: Total Surgical cases inpatient days (during the last financial year) relating to insurer Denominator: Total no. of discharges of surgical cases relating to insurer (As per the calculation of Insurer taking into account all the respective admitted cases excluding day care treatment like chemotherapy, radiotherapy dialysis etc.)	3-4 days
9	C SECTION RATE	Numerator: Total number of Caesarean sections performed during the last financial year) relating to insurer Denominator: Total births (number of deliveries) in the hospital in same time period relating to insurer x100 (As per the calculation of Insurer taking into account all the respective admitted cases in the preceding financial year.)
